Showing him your drawings

[image]

That's me, a recently drawn picture, I plan to dye my hair this way once my hair is longer than shoulder height. I got inspired by Melanie Martinez's hairstyle and wanted that split colored hairstyle cus it fits me and it got a meaning, it should represent my messy personality in the sense of likings and such, I'm not a messy person, don't get me wrong, for example, I like it all cute but then I like it creepy, two opposites, I'm a soft girl but then again I want to go all Tomboy and cool, the second meaning, blonde: vanilla, dark brown (my natural color): dark chocolate, I also love sweets, that's why

Feel free to ask any questions
(My drawing style is also a mess)

Aries: UK (he likes it)

Taurus: America ("cool")

Gemini: Germany (hard judging)

Cancer: Russia (likes it a lot)

Leo: Philippines (he loves it)

Virgo: France ("can you paint me like one of my French girls?~")

Libra: Italy (*clapping* "not bad")

Scorpio: Mexico (gives you a taco for the good drawings)

Sagittarius: Japan ("kawaii!")

Capricorn: Ireland (likes the coloring)

Aquarius: Ukraine (likes the line art)

Pisces: Canada (wants to draw like you)

Him taking you to an interview

[image]

Aries: UK ("Yeah, this bastard called tea, flavoured water, it was unbelievable")

Taurus: America ("tell us something your mom doesn't know" "OoOoOh *deepthroats the microphone*")

Gemini: Germany ("I picked zem off ze ztreet, I regret that desizion")

Cancer: Italy ("this bitch over here can cook me pasta, the only reason I let them stay here")

Leo: Mexico ("this chica over here makes the best tortillas and salsa")

Virgo: Russia ("I don't know who ze fuck that is, that person just came into my house with a bottle of vodka in their hand, I still don't know their name")

Libra: Canada ("they stole all of my syrup! My fucking syrup!" >:c)

Scorpio: Australia ("weeks passed and they still hate Josh the tarantula, he's just a friendly party spider, he also loves flies")

Sagittarius: France ("they keep saying 'paint me like one of your french girls', excuse me, stop it, stop it with the jokes and they also call my language 'baguette language'" T_T)

Capricorn: Japan ("Nani?! They just ran off with my manga collection!" *runs away from the reporter to chase after you*)

Aquarius: Philippines ("they hate my Tamales... MY TAMALES!")

Pisces: Spain ("so, Yeah, they vibe all day on my beach but they also hit me with a slipper sometimes")

So, yeah, hopefully you guys enjoy some of those with scenarios instead of just the country standing there, it's not a whole scenario but I don't know how to call it. This book is kind of underrated but I still appreciate those who read it and enjoy it

I was bored, so I made a challenge for the Countryhumans fandom, drawing yourself as the country you live in. I didn't intend to make my drawing beautiful, I just wanted to draw something without making really the effort in making it look more nicely

A dirndl is traditional German dress that is being worn during the Oktoberfest.
I have one and it looks like this and it's actually more pink in real life

This one is from a special collection called "Hailey's Madl".

If you want to buy a dirndl in Germany at any store, you'll notice one thing for sure, there aren't any cheap ones.
Yeah, you heard me right, you can't find a single cheap ones, nah nah nah, we don't sell cheap ones but the expensive ones do look beautiful and are very promising with their high quality.
They start around the price of 50-60 euros and go up to 100 euros or more, yeah, those dresses ain't cheap if you want a good one

creating a story checklist

[image]

This is just a checklist which I made to help me write my own story aka fanfiction, specifically fanfiction, it just gives me an overview of what should be included and I'm just sharing it cus it might help people write stories too, this checklist is more of detailed and just goes to perfectionist way cus I am one and I'm a sucker for details, also, you don't need to follow all the things below in the checklist, this is just an example showcase of how I do it

Character analysis:

-How do they look? Do they have anything outstanding on them that is really iconic for them?
-who are they in general?
-how do they talk? (Dialect, accent, language,...etc.)
-what are their flaws?
-how do they act in certain situations?
-what are their characteristics?
-do they have any problems in their life?
-what are the cause of their actions in some situations?
-what are their relationships to others?
-friends? Family? Lover/s?enemies or completely lonely?
-what emotions can be often seen in them?
-what do they like? What do they dislike?
-are they important or more of a side character?
-are they good or bad?
-what makes them to who they are? (really important!!!)

World building:

-where does the story take place?
-what are they?
-are there any special things around that place?
-culture?

-how are the people in the living area if there are any?
-what kind of atmosphere do the following areas give?
-are there any special phenomenons in a specific area?

Story board:

-what is it about?
-what genre is the story?
-lore?
-time line?
-how is the story going to be written? (Writing style)
